

# I can design my own app.

Almost everyone has a phone. Phones are very helpful because they have many tools. These tools are called apps. We can use apps to call for help, talk to people we like, do work, play games, and so much more. On this worksheet, use the questions below and the image to the side to design your own app. Use your imagination!

**What can your app do?**

---

---

---

---

---

**Who is your app for?**

---

---

---

---

---

**Why will people want it?**

---
